

John T. Flynn

Resident/Fellow Research and Graduation Day

John T. Flynn, MD, a nationally recognized leader in pediatric ophthalmology, was a retired former Vice Chairman of the Department of Pediatric Ophthalmology and Chief of the Division of Pediatric Ophthalmology at Columbia University Irving Medical Center. He was the first Anne S. Cohen Professor. Dr. Flynn was a magna cum laude graduate of Notre Dame University and received his medical degree from Northwestern University Medical School. In 1965, he joined the faculty of the University of Miami School of Medicine, where he became Professor of Ophthalmology in 1980. Dr. Flynn was the fifth founding

father of the Bascom Palmer Eye Institute and was member of the board at the Bascom Palmer Eye Institute/Anne Bates Leach Eye Hospital's Ophthalmology Research Foundation.

Dr. Flynn was the recipient of a Gold Award, the highest honor given by the American Academy of Pediatrics, a Senior Award for Distinguished Service from the American Association for Pediatric Ophthalmology and Strabismus, and two Outstanding Teacher Awards from the University of Miami School of Medicine. Dr. John T. Flynn passed away on March 18, 2019.

“Lessons Learned About Happiness in Love and Work”
Donald C. Hood, PhD
James F. Bender Professor in Psychology
Professor of Ophthalmic Science (in Ophthalmology)
Department of Psychology
Columbia University Irving Medical Center

Donald C. Hood, the James F. Bender Professor of Psychology and Professor of Ophthalmic Science (in Ophthalmology), has been a member of the Columbia faculty since 1969. He holds M.Sc. and Ph.D. (1970) degrees from Brown University and honorary degrees from Smith College (2000) and Brown University (2017). He is an elected Fellow of the American Academy of Arts and Sciences and a recipient of an Alcon Research Institute Award (2014). He currently serves as Editor-in-Chief of IOVS. While some of his over 300 publications deal with issues of the basic neuroscience of vision, most of his work over the last 25 years has concerned research on diseases of the retina and optic nerve. He has had continuous grant support from NIH/NEI for over 45 years.
